Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claim 49 is objected to because of the following informalities: the claim does not end with a period ".". Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 15, 16, 18, 29, 42, 43, and 45-47 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Barker (5,040,835). Barker's support structure 11 has recesses 26, 27 aligned with recesses in the second side for holding the pivot end 31 of the stop member.

4. Claims 15, 16, 18, 19, 29, 42, 43, 45, 46 and 48 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by JP 9-324575. JP has a support 6 having recesses (between teeth 14) for receiving projections 27 to adjust the height of the stop. The stop has two legs 18.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 3677

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 17, 30-32 and 44 are rejected under 35 U.S.C. 103(a) as being unpatentable over JP 9-324575 in view of Haynes (4,494,784).

JP discloses the invention as claimed but for the adhesive for mounting. Haynes teaches attaching a doorstop to the door by using adhesive or screws. It would have been obvious to attach the doorstop of JP to the door by using adhesive as taught by Haynes since adhesive and screw are functional equivalent in the art of fasteners, as recognized by Haynes.

Allowable Subject Matter

7. Claims 20, 33 and 49 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
